

# The best way to instantly accept & manage payments in your online store.

## WHAT IS STRIPE?

Stripe works with any type of business and makes it quick and easy to accept payments.

## PERFECTLY SCALED

Stripe processes billions of dollars every year for Fortune 500s and small startups alike.

## QUICK INTEGRATION

Stripe partners with GoDaddy to let you add payments to your store seamlessly. Forget creating merchant accounts and worrying about compliance.

## WORLD-CLASS SUPPORT

Stripe is trusted, secure, and headache-free. If you ever need help, just get in touch with our team: [support@stripe.com](mailto:support@stripe.com)

## Payments from start to finish

When you use Stripe to power payments for your online store, you get access to 100+ features that make it easy to manage your payments.

### Proven fraud protection

Stripe actively works to protect your business from fraudulent charges and monitors suspicious transactions.

### Act locally, work globally

Process major international credit or debit cards, right out of the box.

### Rich 3rd-party ecosystem

You can use Stripe with lots of integrations, including tools for email alerts, invoicing, seamless reconciliation, and ERP.

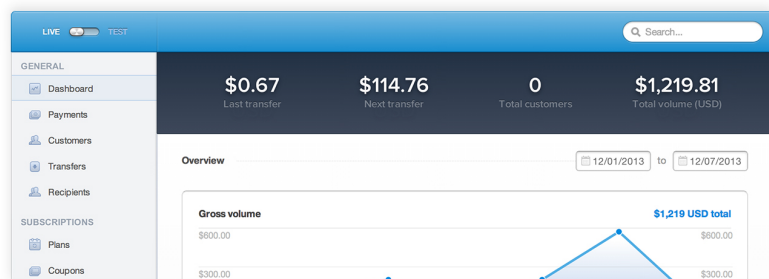

## No monthly fees, no refund costs, no hidden fees

With Stripe's simple and transparent pricing, you only get charged when you earn money. No extra fees for failed transactions, American Express and international cards, stored cards, or recurring payments. Earnings are automatically transferred to your bank account.

**2.9% + 30¢** per transaction, or less based on volume.

## Full control

See all your transactions, manage your account, export data, and much more directly from your Stripe Dashboard.

**Get started.** Learn more about Stripe, or take it for a spin at [stripe.com](http://stripe.com).
